Life is Misery To many peagle who have the taint of secrofuls in their blood. The agonies caused by the dreadful running sores and other manifestations of this dissease are beyond description. There is no other remedy equal to Hood's Saraparilla for scrottlas, sait rheum and every form of blood disease. It is reasonably sure to benefit all who give it a fair trial.

Do you want to repaper your house? If so, you will want the very latest patterns of wall paper. Where can they be found; that is, such goods as will suit the different tastes? You as will suit the different tastes? You know it will take a large stock to meet the different wants. Mr. T. T. Skill-man, of Lexington, has such a stock, and he is very anxious to get some of our trade and requests those wanting paper to send to him for samples and prices. Mr. Skillman is a reliable and responsible/dealer, and we take pleas-ure in recommending him as such to our readers. He has an advertise-ment in this issue.

Poultry Notes

Milk in all its forms is most valuable as food for poultry. See that your breeders are healthy, vigorous and of good size.

For health feed oats, for fat, corn and for eggs meat scraps and wheat. The hen that lays well is one that is moving around and scratching all the time.

The most important matter in raising the chicks is to give them warmt! enough. There is no better fertilizer for the garden than the manure from the

Tennyson on Spring.

We have the word of Alfred Tennyson for it, that in the spring the young man's faucies lightly turn to the thoughts of love. It is singular that the great laureate omitted to mention the fact that it, is in the spring that a considerable portion of the human race that the property of the burner to taking Hood's Savanarilla. turn to taking Hood's Sarsaparilla. Probably nothing but the difficulty of finding a good rhyme in that invaluable remedy deterred him, Certain it is that the old-time domestic remedies are generally discarded in tayor of the standard blood purifier, Hood's Sarsa-parilla, which has attained the great-Pantheon. Shoes on a Plow Horse.

In plowing, cultivation and many other farm operations a horse will walk from ten to twelve miles a day and advance about four feet at a step. At each step the horse lifts half a pound extra on its two feet, or 666 pounds in every mile. In a day's work of 15 miles the horse would lift 9900 pounds extra, or nearly five tons. If the force required to lift this five tool from could be expended in the work the horse is doing, much more could be accomplished. In the light of these facts is it any wonder that when young horses begin to wear shoes they soon become leg weary, have their shortened and acquire a slow wa gait.—Wastern Agriculturist.

He Will be a Candidate—A No. 1 Man, Suited to the Place.

It will be remembered that Capt B. A. Tracy, of Winchester, was favorably spoken of as one of the Railroad Commissioners under Gov. Brown. In fact, the place had been tendered him unsought, but the ways of politics are past finding out, and some how it was another gentleman who was ap-pointed, and now since this office has become elective the friends of Capt. Tracy, and they are legion are urging, almost demanding, that he become a candidate. So great is the pressure that notwithstanding the Captain has never been a candidate for any office he has yielded to their urgency, and is in the field to win As a man of nd judgment and of the highest or and strictest integrity; a sound Democrat, unyielding in principle, and a hard and continuous worker, Capt. Tracy has no superior, and is in every way worthy of the confidence of the people. Another point in his fav-or is this; neither he nor any of of his family, running back to his grandfather, have ever been appliants for preferment, notwithstanding their party allegiance; and in addition to this, he is an honest man, loving his country and his country's interest. He fought as a courageous soldier four years for the lost cause, which his conscience said was for the principles, rights and property of what justly belonged to the people of the South.

Defeated in battle he returned to
his home an honored and upright

citizen yielding gracefully to the powers that be.

This is Capt. Tracy, of the county of Clark, true to principle, a Democrat, a gentleman and a soldier. Such a man is deserving the suf-frage of the people, and we believe the Democrats of this, the Third district, will name him as their ndidate, and that they could not

The Breckinridge-Pollard trial on in Washington, and the daily papers are filling their columns with the nastiness. By the time By the time the trial has uncovered and expo nasty affair and the principals are dragged through the slime and filth attendant upon it, they will be so begrimed that no decent person will be able to endure the stench sult as it may. God pity them, for little will be the mercy accord-ed them when their brief day of newspaper notriety is over.

The Kentucky House of Repre sentatives concurred in the Senate amendments to the husband and wife bill on Saturday. The passage of this bill brought up the liveliest fight of the session. The effect of this bill is to make every married woman in the State a feme sole without action of the ourt or filing of a bond. The ill is, therefore, a very important, i.e. It only awaits the Governor's signature to become a law.

Gov. Altgeld, of Illinois, Friday, upon recommendation of the Illinois Live Stock Board, issued a proclamation scheduling from February 15 to December 1 the district composed of the States of Alabama, Florida, Georgia, North and South Carolina, Texas, Edusiana, Mississippi, Arkansas, Virginia and parts of Oklahoma. Cattle from the regions "scheduled" must be kept isolated, and can not be drivupou any public highway.

The Ninth District.

At the November election in 1892, the Ninth district went Dem-ocratic by a majority of nearly three thousand; and in the Novem-ber election in 1893, it actually went Republican by a small major-ity. These are astounding facts,

ity. These are astounding facts, but nevertheless true.

The contest in the next Con-gressional election in this district is going to be close, stubbornly fought, and, perhaps, a bitter one. There is no denying the fact that the Republicans are making her-culean efforts to elect a Congress-ne this district. If there ever man in this district. If there eve was a time when Democrats should work harmoniously together, and select an able and competent standard bearer, now is the time. He should have no scars upon him or be entangled in party broils. He should be young, vigorous, capa-ble, broad-minded, and a thorough

Capt. W. G. Dearing, of Fleming Capt. W. G. Dearing, of Fleming county, would undoubtedly make a formidable candidate. He is fitted for the position by culture and breeding. He is a ready and an able debater, and has high execu-tive ability. His military training gives him a capacity for organiz-ing, which was displayed to high advantage during the last Presi-dential camagin. During that dential campaign. During that campaign, while an elector, he made nearly fifty speeches in East-ern Kentucky, and they gave him a reputation as an orator and a party leader. His party service certain-ly deserves being rewarded. If the Democracy of the Ninth district

Democracy of the Ninth district should nominate him, we should feel no doubt as to the result. The loss of noe Congressman may amount to much; the loss of many Congressmen may change the complexion of the House. We would say to our brethren of the Ninth, by all means have har-mony, select your strongest and loss man and then gat to work and select your strongest and an, and then go to work and elect him

The candidate that Montgomery County presents, to the State, for Superintendent of Public Instruct-ion is a man that those who know best are the most open and unqualified in pronouncing eminently fitted for the position to which he aspires. Major Fowler has given his life to school work and right earnestly senool work and right entreastly has he labored in his chosen field. That he has been a success wherever he has taught, only needs for one to hunt up his record to ascertain. He is an enthuiast on the subject of his chosen profession, and seeks the position of Superintendent of Public sition of Superintendent of Publi occasioned by the presence of Instruction because he honestly be either. The future of both is irretrievably ruined, let the trial result as it may. God pity them, educational interests of Kentucky. lieves he is thoroughly prepared to advance, in a large degree, the educational interests of Kentucky. He is a widely read man, especially on all that pertains to school work, and what is better he thoroughly digests all the information that comes in his way. When it comes to a general hustle he is in it, for he is as full of energy and untiring industry as it is possible for him to be. He is genial, confidence inspiring and posseses the power of tying friends to him and cannot fail to make a strong race. conscientiously believe there will no better man be offered to the Demo-cratic party for the position than Mai. Fowler.

senator J. C. S. Blackburn will be opposed for re-election by Governor John Young Brown and ex-Governor James B. McCreary. How many more will be candidates for Black. burn's teat in the Upper Honse, it is impossible now to sav.

Tor the second class The charter for the second class that the promised to marry Miss Poletties was passed by the Kentacky. The Legislature, on Wednesday. The House concurred in all but 12 of the 113 amendments. These twelve were unimportant.

NO IRRITATION.

Not So

The report sent out from Winches

The report sent out from Winchester to city papers that Judge Scott contemplates resigning this District Judgeship on account of ill health is incorrect. Judge Scott has been in poor health for some time but is gradually improving and will be able to hold the position he fills so well—Richmond Climax.

To Judge Scott's many friends in his county this is cheering news. He is unqualifiedly one of the very best circuit judges in the state, and his services can lily be dispensed with by his district. While serving as Common Pleas Judge he won for himself the bighest opinions from the bar at the place and from the people of the counplace and from the people of the coun-y as well. The great trouble is that there are not many more such men filling our judicial positions.

The weekly reviews of trade by the commercial agencies state that "while evidences of present improvement continue to multiply, confidence in future improvement does not appear to increase." Distinct gains are reported in the iron and steel manufactured in the and great textile manufactures

ure, and great textile manufactures and dry goods.

GLADSTONE'S RECORD

The Difference He Has Made to the World at Large and England in Particular.

Mr. Gladstone, as a statesman, has done several potable things at home and abroad to live in history, says W. T. Stread. He has contributed more than any single man with pen and voice to create larly and to destroy the dominion of the Turk in Europe. As Prince Milaster or feetionaties, he Prime Minister or plenipotentiary, he has enlarged Greece, transferred Corfu and established British influence in Egypt. He femiliaria Egypt. He familiarized the public with the idea of the European concert with the idea of the European concert, not merely for debate but for action and has maintained in times of the greatest stress and storm that Russia was not outside the pale of human civilization or of liberal sympathy, to imperial polities he has constantly condemned the strong creed of the washbuckler. He has annexed new Guinea, North Borneo, and Bechuanaland, but he has seducously condemned every extension of the empire that was not forced upon use for the confirmed every extension of the empire that was not forced upon use for inscorable necessity. He has declared inexorable necessity. He has declared out of Afal.anistan and retreat from the Transvaal. He established the great precedent of the Alabama arbitration, and was the first British states.
